The United States and England Are Acting in Accord in Regard to the Matter.

The Recent Outbreak in Samoa Can Under No Circumstances Be Construed as an Overt Act Against Germany, Nor as a Casus Belli.

Washington, March 31.—The Samoan erisis divided attention with the fighting about Manila in all official quarters Thursday. At the foreign embassies where this has been a subject of consideration of late, considerable anxiety was shown lest the affair should assume a grave international aspect. Sir Julian Panneefote, the Pirish ambassion, went to the state of the same of the with Dribsi and American war ships co-operating in a bombardment more than usual interest attached to the call. As to the German attitude, it is statd positively, in a quarter thoroughly

as the United representation of the comparative unimportance as an official dispute in Samoa. It is said that the German government would probably have accepted Adm. Kautz as a sort of unpipe, taking his decision as final, but that the objection, quite foreibly expressed to the state department, was the manner of his going to Samoa, while I friendly exchanges were going on, without notice to Germany. The German ambassador has received no advices and no instruction relative to the ver ored boundardiment, and the comparative control of the co

The state department acknowledges that no permanent agreement can be reached under the treaty in which all three powers do not agree and the hope is that some settlement of the difficulty may be brought about when it becomes apparent that the present conditions an one cast indefinitely.

Adm. Kautz acted within his instructions. It is believed that the concluded, after consultation with Capt. Such and officer, and the Uniced States and British consults, that a state of an archy existed which called for action. The fact that the edicts on the chief justice were disregarded and were ignored although sustained by the representatives of two of the governments made such a course imperative. There is no doubt with the facts now at hand that Adm. Kautz will be sustained by the United States government.
